DATE:

I confirm I was present and observed the work described above.

GUIDANCE NOTES FOR THE COMPLETION OF AN OBSERVATION REPORT

What is an observation report?

A signed record, written by an assessor, of a task the candidate was seen to perform. The assessor must have been present for the work described.

What must it include?

Where and when the task took place, who else was involved, which equipment and procedures were used, and how the candidate's performance compared with the standard.

How will it be used?

It is filed as direct evidence of competence and cross-referenced to the standard, so that what is still outstanding can be planned.
